The issue which came up was the problem of survey which is done by both government and NGOs. Therefore a common consensus that emerged was a need for a coordinated effort. The survey by district authorities as well as the alternate survey by NGOs can be compared and action taken to enroll all the students either in school or bridge courses.

The DEEO Mr. Paneerselvam pointed out that SSA will help in enrolling and setting up the Bridge schools who are dropped out. He wanted the NGOs to carry out survey by which it can supplement the on going efforts of the district school authorities. In addition the DEEO informed that if any area has a non-enrolled children's population of more than 15 SSA can start a bridge school. Moreover he talked about the detailed survey by district authorities in the Village Education Register.

One of the important issues raised in the meeting other than the survey is issue of fees.

Ms. Jenny of World Vision highlighted the issue of school authorities forcing the parents to go NGOs if they are unable to pay the fees.

This point was supported by Mr. Fr. Antony Raj who pointed the exorbitant high fees in high and higher secondary schools.

The DEEO replied that all Government and aided schools cannot ask fees but only the nursery and self finance schools do this. Therefore he wanted a evidence complaint to take action against the errant school authorities.

When the meeting was digressing to include other broader issues Unicef District Consultant Mr. Godsen Mohandoss, intervenred and brought back to course too focus on enrolment and related issues already discussed in order to derive concrete results.

The meeting agreed on the following conclusion:

- i) DEEO assured that he will share the intermediate results of the survey which will be carried out.
- ii) The DEEO will issue a circular to all schools to enlist the children who are affected by tsunami.
- iii) Sharing of alternate reports of NGOs to district authorities.

The meeting ended with a positive note to meet finally on the first week of July to decide the areas, methods and dates for the campaign.

The HRFDL responded that the matter will be negotiated with few funding bodies if we could find proper funding, the HRFDL will construct a temporary school. Only few NGO representations and not all the AEEEO attended, the meeting was ended with the idea of drawing a proper plan of action in the forthcoming final enrolment meeting.
